

Venilia 
CRÉATEUR DE TENDANCES

COLLECTION
2023

A company with tradition

Only a few companies have expertise dating back to the 19th century, as Vénilia does. In 1874, Vénilia (at the time still operating as Maréchal factory) began producing its first tablecloths. In 1956, the company gained an international reputation for its range of adhesive film. This former-pioneer status is still respected to this day, due to ongoing changes.

Always in touch with the latest trends

Vénilia has made a name for itself with its high quality products and broad product range: Tablecloths, table protectors, table sets, adhesive films, anti-slip mats and other useful accessories. The company responds to the wishes and expectations of its customers and now offers almost one thousand items for a trendy table culture and interior design accessories.

Windhager acquires the controlling stake of Van Merksteijn Plastics

In November 2018 the Vénilia Group took over the controlling stake of the PVC-film maker Van Merksteijn Plastics (VMP) in Enschede. With this strategic acquisition the Vénilia Group can combine the strengths of a trading company with those of manufacturers.

TIPS AND TRICKS

To best apply our adhesive films with material finish in the corners of a piece of furniture, blow dry them with a hair dryer (20cm away from the adhesive).

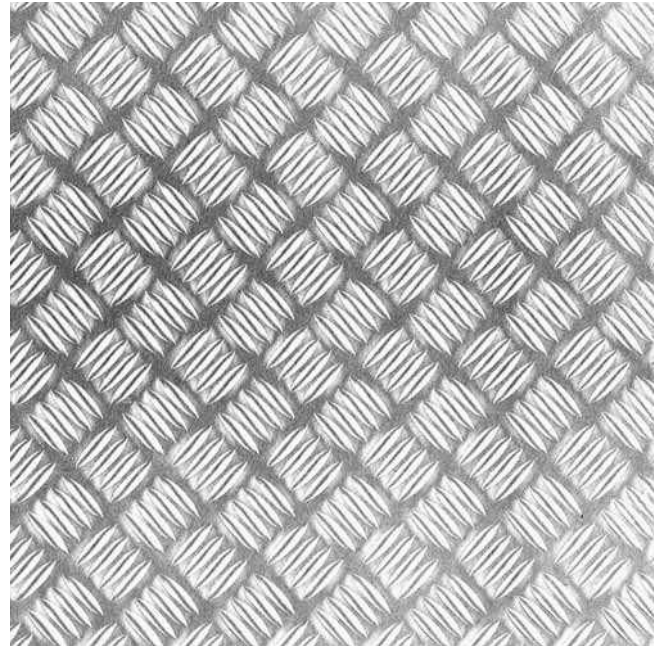

This will make them more flexible and therefore adapt better to the shape of the angles.

Smile

Adhesive foils Uni matt

These high-quality adhesive foils will make any room shine in all the colors of the rainbow. In addition to the huge color selection, the particularly high quality is essential: the films are colored through and therefore exceptionally scratch-resistant. If a scratch does happen, it is hardly noticeable! The structure embossing provides the matt look and pleasant feel.

Technical foils

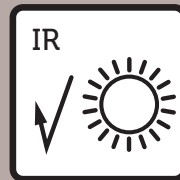

The technical window foils are either statically adhesive or self-adhesive. They keep out warming rays of the sun, darken rooms or protect you from prying eyes. All foils are easy to apply to the inside of window panes and glass surfaces.

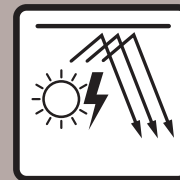

Protects against brightness and glare

Excellent UV protection

Minimises heat exposure

Prevents fading

Adhesive foils:

BENEFITS

Our anti-heat solar films are designed to create a pleasant climate in your home.

They act as real UV barriers and dramatically reduce heat from the sun.

Indoor temperatures can be lowered by 10 degrees.

Adhesive panel for kitchen splashbacks

The adhesive panels are specially designed for kitchen back walls and are just as functional as tile or glass back walls are: waterproof and easy to clean. The aluminium version is even suitable as a back wall for an oven, stove or an extractor fan! The decisive advantage: the panels are simply glued on, no cumbersome, extensive construction work is necessary!
